

# ANTENNA ALERT!

*Antennas must be removed or retracted prior to transport.* This procedure is the owner's responsibility.

Antennas not removed or retracted could cause damage to your vehicle and/or windshield.

Swad Auto Transporters, Inc. will not be liable for damage caused by or to your antenna.

Your cooperation will help in avoiding damage to your vehicle and others on the transport.

## ATTENTION ALL "E-Z PASS" CUSTOMERS!

Our trucks are now equipped with "E-Z Pass" transponders in order to expedite their travel through toll booths.

In order to avoid charges on your personal "E-Z Pass" account, please remove your transponder prior to transport.

Thank you. We appreciate your help and cooperation.

## AUTO TRANSPORT "DOOR TO DOOR" SERVICE Defined...

In the auto transport business, a "door to door" service consists of a pick up or delivery either by flatbed or directly by the 75 ft. car carrier.

**Please note:** *When the carrier itself is coming directly to your door, it is oftentimes necessary to load or unload your vehicle at the closest parking lot or open area in order for the carrier to maneuver the equipment.*

Private residential neighborhoods with low-hanging trees, etc. make it impossible for an open car carrier to service directly in front of your door. Please be prepared to meet the driver at the nearest location.

Your cooperation is greatly appreciated. Together we can make this transport a most successful one.
